## Are you interested in saving an estimated \$400 per year on water, sewer and energy costs?

Dear Owner/Manager:

As featured in the enclosed article from the Main Ingredient, you have an opportunity to receive a high efficiency pre-rinse dishwashing sprayer absolutely FREE. Compared to the typical shower type pre-rinse sprayer that uses from 3 to 6 GPM (gallons per minute), the high performance efficient model uses just 1.6 GPM and has a retail value of \$68.

EWEB has teamed up with Energy Trust of Oregon (ETO) to offer this energy saving program. This limited offer is on a first-come, first served basis to customers of EWEB and NW Natural who have an existing sprayer in good working condition. Through the statewide program, over 1,200 sprayers have been installed since September 2005. Some participants include Burgerville, Fred Meyer, Milo's City Café, McMenamins Pubs, Portland Public School District, Shari's and Starbucks.

To reserve your free sprayer, simply complete the appropriate enclosed application and fax to (503) 243-1154. Note that a different application form is needed depending on whether you have gas or electric water heating. Or you can call (503) 227-2173, let us know if you heat your water with gas or electricity and we will get you an application form. Once your signed application form is received authorizing the change out, ETO will schedule a licensed journeyman plumber to do the installation at no cost to you.

If you have questions about electric savings programs for your lighting and refrigeration, call EWEB Energy Management Services at 484-1125. If you are interested in saving water in your restaurant, call EWEB Water Management Services at 984-4747. For more information the Energy Trust programs please visit the following website: [www.energytrust.org/buildingefficiency](http://www.energytrust.org/buildingefficiency). For your free sprayer, complete and fax the enclosed form or call the Energy Trust of Oregon at (503) 227-2173 today.

Thanks for considering this water and energy saving device.
